## FALL CLOTHING AT MODERATE PRICES!

Prices in keeping with the quality of our merchandise is the boost we are making this Fall.

Wool is scarce, and so is certain to cost more than it did a year ago, but we've stuck to the quality end and let prices take care of themselves.

A shoddy piece of goods is expensive no matter how low the price; because you cannot hope to get the wear out of it that you can out of good, pure wool.

Our prices are marked nearer cost this season than ever before, and our goods are up to the standard which we have set in the past half century. Wouldn't you rather buy a coat or suit that we were ready to stand back of, than some unknown, untried garment which costs a few dollars less?

**BE SURE OF THE QUALITY  
Then Look to the Price**

Road drag inspectors report to the State Highway Department that many of the inter-county seat roads are being neglected, and that the money appropriated by the Legislature to improve these roads has been allowed to accumulate in local banks while the roads remain in very bad condition. These inspectors are instructed by the State Highway Department to report failure to drag or otherwise improve inter-county seat roads, and it is the purpose of the Department to withhold drag funds from any county in which the county highway board fails to provide for the improvement of the inter-county seat roads.
